

## STORE AND FORWARD

A blog about securing and using WebSphere MQ

Thank you for your interest in WebSphere MQ security! The presentation you have requested is out of date. Find the most current version at the landing page:

<http://t-rob.net/links>

Although some content is timeless, security related documents can be superseded quickly and it can be dangerous to rely on out-of-date content. I have tried to make it easy to find the latest versions of all my presentations but if you are reading this then someone has bookmarked a direct link to the presentation instead of to the landing page. Although I'm grateful for wider distribution of this content, PLEASE refer to the current version of it and update your bookmarks.

Thanks! -- T.Rob
